

Information Item 02- 2018

October 2018

**TO: LICENSED ELECTRICAL CONTRACTORS
ELECTRICAL CONSULTANTS & ENGINEERS**

SUBJECT: 2018 CANADIAN ELECTRICAL CODE ADOPTION

The 2018 Canadian Electrical Code, Part 1 has been adopted in the province of Saskatchewan. The 2011 M421 Standard for use of Electricity in Mines and the 2015 Code for Electrical Installations at Oil and Gas Facilities will continue to be enforced.

In accordance with past practice, SaskPower Electrical Inspections will allow a grace period and will commence enforcement of the new 2018 CEC document effective January 1, 2019.

The 2018 Saskatchewan Interpretations will be available on our SaskPower website, www.saskpower.com, as of November 2018. The 2015 Code for Electrical Installations at Oil and Gas Facilities will continue to be available on our website as well.

Thank you for your co-operation in this and all matters relating to public safety.

Provided by the Electrical Inspections Offices of SaskPower
