TO ALL SOLAR DEVELOPERS

Re: 2019 10 MW Solar Competition

SaskPower is developing the next 10 Megawatt (MW) Solar competition. The competition will start with a Request for Qualifications (RFQ) phase in the first quarter (Q1) of 2019.

SaskPower will not be providing a site location for this competition. Any proponent who wishes to submit a proposal into the competition will be required to provide a site location for their project proposal. Proponents will be allowed to submit up to two sites during the public procurement process.

Suppliers are encouraged to contact us through procurementinquiries@saskpower.com with any questions or comments.
