

SASKPOWER STANDARD GENERATOR INTERCONNECTION PROCEDURE (SGIP)

The following information outlines the steps a customer needs to complete to connect to SaskPower's transmission system.

Stage 1: Interconnection Request Submission

Interconnection Customer will:

- Submit completed Application Form (SGIP Appendix 1) including attachments
- Submit \$15,000 Non-Refundable Deposit
- Correct application deficiencies if applicable within 15 calendar days

SaskPower will:

- Review application
- Assign queue position
- Advise Interconnection Customer of application deficiencies
- Set up scope review meeting

Stage 2: Feasibility Study Request (Optional)

Interconnection Customer will:

- Sign and return the Feasibility Study Agreement (FSA)
- Submit \$15,000 deposit
- Request Feasibility Study review meeting (optional)

SaskPower will:

- Draft the FSA
- Execute the FSA
- Perform Feasibility Study within 90 calendar days*

Stage 3: System Impact Study

Interconnection Customer will:

- Sign and return the Combined Study Agreement (CSA)
- Submit the applicable deposit amount:

<20 MW	\$50,000
20 to 50 MW	\$75,000
50 to 150 MW	\$100,000
>150 MW	\$150,000

- Request System Impact Study review meeting (optional)

SaskPower will:

- Draft the CSA
- Execute the CSA
- Perform System Impact Study within 120 calendar days*

Stage 4: Optional Interconnections Study

Interconnection Customer will:

- Sign and return the Optional Interconnection Study Agreement (OISA)
- Submit \$30,000 deposit
- Agree on timeframe to complete OISA

SaskPower will:

- Draft the OISA
- Execute the OISA
- Perform OISA within agreed upon timeframe*

Stage 5: Facilities Study

Interconnection Customer will:

- Submit written permission to proceed with Facilities Study
- Submit \$150,000 deposit
- Request Facilities Study review meeting (optional)

SaskPower will:

- Perform Facilities Study within 270 calendar days with a +/- 20% cost estimate*

Stage 6: Standard Generator Interconnection Agreement (SGIA)

Interconnection Customer will:

- Request negotiations concerning appendices
- Sign and return SGIA

SaskPower will:

- Draft the SGIA and appendices for review and negotiations
- Prepare final SGIA for signatures
- Execute the SGIA
