

**CUSTOMER RENEWABLE PROGRAMS:  
ALTERNATIVES TO SELF GENERATION**  
**THURSDAY, OCT. 12, 2023 | 12 – 1 PM**

Join our Customer Solutions team to learn about new renewable offerings we're considering for residential customers. This session will focus on offerings that allow customers to participate in the renewable market without the hassle and up-front costs associated with installing rooftop solar. We want to hear about what's important to you and share what we've been hearing from Saskatchewan residents so far.

**PANELISTS**

**Jenna Bedel**

**Amanda  
Tafelmeyer**

**MODERATOR**

**Rachel Molnar**

PANELIST:

JENNA BEDEL

Jenna has worked at SaskPower since completing her Bachelor's of Arts degree from the University of Regina in 2008. She's served as a Consultant for the Customer Solutions team for the last five years, expanding her knowledge of the utility industry, specifically focused on customer generation and Distributed Energy Resources. She's passionate about the environment and loves that through her role she can help forward the energy transition in her home province. This past year, Jenna became the co-chair of SaskPower's employee-led Sustainability Network which provides her another opportunity to promote education and positive change where she works.

PANELIST:

AMANDA TAFALMEYER

Amanda is a Consultant in SaskPower's Customer Strategy and Solutions area, where she's one of the primary leads on the corporation's Customer Self Generation & Renewables portfolio. Her background is in customer service, program development, and strategic planning. She holds a Bachelor's of Business Administration from the University of Regina and a Master's of Business Administration with a specialization in business and data analytics from the University of Fredericton. Amanda spends her days focused on researching and developing innovative programs within the energy space to support the province's journey to net-zero greenhouse gas emissions.

MODERATOR:

RACHEL MOLNAR

Rachel is a Senior Consultant on SaskPower's Communications Strategy team where she currently supports the corporation's Future Supply work. Previously, she supported SaskPower's operational teams in transmission, distribution and power generation. She holds a Master's in Professional Communication from Royal Roads University, as well as a Bachelor's of Arts and a Certificate in Public Relations from the University of Regina. She's passionate about public engagement, Saskatchewan's power future, and creating inclusive, accessible communications for diverse audiences.

## ABOUT SASKPOWER

Established in 1929, SaskPower is Saskatchewan's leading energy supplier. Our corporate mission is to ensure reliable, sustainable and cost-effective power for our customers and the communities we serve.

SaskPower's team is made up of nearly 3,100 permanent full-time employees. We manage almost \$13 billion in generation, transmission, distribution and other assets. Our company operates seven natural gas power stations, three coal-fired power stations, seven hydroelectric stations, and two wind facilities. Combined, they generate 3,968 megawatts (MW) of power. SaskPower also buys power from various independent power producers. Our company's total available generating capacity is 5,437 MW.

We're responsible for serving over 550,000 customer accounts within Saskatchewan's geographic area of approximately 652,000 square km. We maintain over 160,000 circuit km of power lines, 59 high voltage switching stations and 200 distribution substations.
